## A message from President/CEO, Shana Ellis

**“I can't change the direction of the wind, but I can adjust my sails to always reach my destination”, Jimmy Dean.**

This year continued to be a year of change. At all levels of government there are new regulations and expectations in the way services are provided for people with disabilities. This includes new Department of Labor regulations, an increase in the Federal minimum wage, new insurance requirements, and reimbursement rates that do not reflect the true cost of providing services. At TCH we must remain flexible to provide the quality of care for those we serve. We continue to evaluate all areas of the organization and make changes to ensure we are running as efficiently as possible without impacting the direct services for our members.

This year we have had many reasons to celebrate: growth in our document destruction business (ASDD Document Destruction), which has also increased the number of people with disabilities employed; being a recipient of the \$100,000 Arizona Diamondbacks Ken Kendrick Grand Slam Award to create an accessible backyard space; chosen for Keller Williams Red Day project; partnering with Vanguard and other organizations to receive expert advice in many areas; and increasing jobs for people with disabilities through Source America and small groups working in local businesses.

The TCH team continues to put our client's needs first and do everything possible to find creative and innovative ways to provide hope and purpose for everyone. Thank you for helping us adjust our sails, year after year.
